SUMMARY

Jiaqian Zhao is a Full-Stack Web Developer who finished intense training and graduated from the University of Oregon Coding Bootcamp. Where knowledge of coding languages such as HTML5, CSS3, JavaScript, and MERN was concentrated.

Has a passion for UX/UI, focused on a user-friendly interface. Can provide a flawless end product that meets each customer's unique needs by using strategic yet adaptable preparation and acute attention to detail. 10 years of experience with violin builds upon the adaptability and focus that is needed for arduous coding projects.

On a team of four, applied aspects of UX and agile development in the most recent project to develop a single-page MERN messenger App, using Firebase liveDB as the database. Along with Firebase's user authentication method to accomplish a serverless architecture.

Jiaqian is looking for a junior position job to learn from more experienced people and develop more skills in the real world.
